TAKE TWO

Or go solo...

Finally a pedal boat experience for two with features not found in our other models. Much more versatile with the kick up rudder and removable drop in drive units, making it easier to beach and use in shallow water. Going alone? Drop in a drive unit in the center, reposition the seat and off you go!

You are the *power* behind this boat!

5980 Grand Haven Road Muskegon MI 49441
(231) 798-8440
www.nauticraft.com

Key Features

- ◆ Durable rotationally molded hull
- ◆ One or two person capacity
- ◆ Kick up rudder assembly and drive units for easier beaching
- ◆ Molded in handles at the stern for lifting
- ◆ Self draining cockpit
- ◆ Options: Trailering/Storage cover, Bimini

Drop in Drive Unit

Pedal Propulsion

It's an all in one drive system and unlike other drive systems in the Nauticraft line. No drive shaft needed, the propeller is attached to the drive unit itself for ease in removal and use. The rubber belt is easy to replace and more cost conscious than other designs.

Specifications
